**T**HE Learning Tower is an innovative stepstool, the brainchild of Carol Gamble of Little Partners in Shreveport, La. It keeps your toddler safe and sound as she or he helps you in the kitchen. The 2-year-old can keep her balance as she helps mommy prepare meals. The Learning Tower is adjustable. The platform can be moved up or down, according to the little one's height. \$169.95.

Add a Playhouse Kit accessory (\$32.95) and you can turn the Learning Tower step-up into a magical fun playhouse. It converts easily into a puppet theater, desk or fort for lots of fun outside the kitchen. Whatever the child wants. In recommend you get both units at the special combo price of \$189.95. See more at [www.littlepartners.com](http://www.littlepartners.com).
