KEEP YOUR LITTLE HELPER SAFE AND SOUND

Children are all about exploration. The entire world is new and they want to know everything about it. Because they're still small, not everything is accessible which makes for some fairly frustrated toddlers. The Learning Tower is a simple way to help toddlers in the conquest of their new world. Constructed of sturdy, high-quality birch, The Learning Tower is made to last. Its four-sided design and roomy platform fosters both child and caregivers' feelings of safety while enabling the child's desire to be independent and inquisitive. To accommodate different aged children, the platform height adjusts quickly and easily. The Learning Tower has a suggested retail price of \$169.95 and is available at Tiny Totland in Manchester and Portsmouth.
